EXPERIENCE

Developer Intern

Feb 2021 – Apr 2021 • E-construct Design and build PVT. LTD.

Planned website development, converting mockups into usable web presence with HTML, CSS, JavaScript, coding. Worked as a Trainee Developer. Mainly worked on Payment Gateway and API Integration with in-house developed software.

College Project

Blog Site

Planned website development with Python, Django, HTML, CSS, JavaScript, coding. This Project was a Blog Site where a user can register/login and make their own blog posts and share. A user can post in any format i.e., Images, Text and Video.

College Project

Number Plate Detection

This project aims to recognize license number plates. In order to detect license number plates, we will use OpenCV to identify number plates and Python Pytesseract to extract characters and digits from the number plates.
